Kump signified his intention to plead guilty to the charge at a hearing Thursday before Justice of the Peace George A. Lippy, Hanover. Kump was committed to York County Jail in default of \$2,000 bail. The Maryland youth was released in custody of his parents.

## REFUTES PIECE BY VFW MEMBER

"The government has no intention of moving the barn which has been on the Culp farm for more than 100 years," Dr. J. Walter Coleman, superintendent of the National Park, told The Gettysburg Times today.

Doctor Coleman was referring to an article in The Times on Thursday which reported on a meeting of the VFW post Wednesday night.

The information in the article was given to The Times by a representative of the VFW who stated that the barn on the farm would be moved.

Doctor Coleman said the information is incorrect. He said the government plans to lay a sidewalk in front of the farm if the money is appropriated. If funds are forthcoming the sidewalk will be laid next year.

The barn will not be moved, Doctor Coleman said. "We will confer with representatives of the VFW with reference to the pig sty and the odors from that area in an early future."

## Chancellor Of Germany Is Due Here Sunday

If the weather is favorable Chancellor Konrad Adenauer, of West Germany, will arrive at the Gettysburg airport about 12:30 o'clock Sunday noon. There he will be met by Major John Eisenhower, the President's son, and will be driven directly to the farm where he will have lunch with the President. This will be followed by informal talks with the Chief Executive.

President Eisenhower is expected to fly to Gettysburg again, if the weather is favorable, Sunday morning. After the informal visit at the farm with Chancellor Adenauer the two men will fly or drive back to Washington again depending on the weather.

Sunday morning Adenauer is expected to leave the home of his host in Connecticut, Dannie E. Heinemann, engineer and international financier, at 10:45 o'clock for the Westchester airport near White Plains, N. M., where he will take off for Gettysburg at 11:15 o'clock. If the weather is favorable he will use the President's blue and white Aero Commander twin engine plane.

**May Use Columbine**  
However, if inclement weather prevails, Adenauer will be flown to Harrisburg in the President's four-engine Super Constellation, the Columbine III, taking off at 10:45 a.m. Since the Columbine cannot land at the local airport Adenauer will be flown to Harrisburg. If the weather permits he will board a smaller plane for the flight here or he will be driven by automobile to Gettysburg.

The Christian Democrat leader, who touched off an angry storm in West Germany last month by demanding atomic weapons for his country's army, faces new parliamentary elections in September. Adenauer's official conferences began Monday morning in Washington.

## ASK \$1,800,000 IN SIMPSON AND 3 OTHER DEATHS

The death of Huston G. Simpson, 33, Gettysburg R. 5, refrigerator service operator, and three others in an airplane accident April 13, 1956, in Sullivan County has led to civil suits in federal courts of Pennsylvania and Delaware in which the estates of widows and children of the men are seeking damages totalling \$1,800,000.

Vera G. Johnstone, Camden N.J., administratrix of the estates of Simpson and Donley J. Parr Jr., Lebanon, and Rebecca A. Webster, Aiken R. D. S. C., administratrix of the estate of Edward A. Herre, Harrisburg, are suing Dorothy J. Haussman, Harrisburg, administratrix of the estate of the deceased pilot of the plane, Edward Haussman, late of Harrisburg, in the U. S. District Court of the Middle District of Pennsylvania at Scranton for a total of \$900,000 in damages, \$300,000 for each estate.

The administratrices of the three estates have also brought suit against Beech Aircraft Corporation and Atlantic Aviation Corporation in the United States District Court for the District of Delaware at Wilmington, for a total of \$900,000, or \$300,000 for each estate.

### Blame Pilot

Messrs. Simpson, Herre and Parr were passengers in a Beechcraft "Bonanza" flying from Harrisburg to the Carrier Refrigeration plant at Syracuse, N. Y., on the morning of April 13, 1956. The plane crashed at about 10:20 o'clock that morning about 2½ miles south of Eaglesmere airport, Eaglesmere, Pennsylvania, according to the complaints filed in the suits.

In the civil action in Pennsylvania the estates of the three passengers, Simpson, Parr and Herre, are suing the estate of the pilot, Edward Haussman, arguing that the accident "was due in no manner whatsoever to any act or failure on the part" of the passengers.

The complaint alleges that the deceased pilot was responsible for the accident aforementioned under

preacher. Great sermons are born in studies, not in extemporaneous wit in the pulpit. Reverently believe that the Lord can speak through you. Be yourself and slavishly imitate no man—not even Franklin Clark Fry, great preacher that he is.

Dr. Smith took his text from the 29th chapter of Acts, 19th verse, where Paul, addressing King Agrippa, said: "I was not disobedient to the heavenly vision." He described the setting in which that declaration was made and told the audience that filled the church to capacity: "We, too, are called to bear the same witness as Paul."

**Urges Bible Study**

He urged the members of the class to "seek to know God. The first obligation of a minister is to seek to know God so he can speak of Him with genuine reality." He quoted Carlyle as having said of a congregation: "What this parish needs is a preacher who knows God other than by hearsay."

Dr. Smith told the young men they can come by spiritual knowledge "by being diligent students of the Bible, your supreme textbook." He warned against limiting reading to commentaries. "Some commentaries are crutches that cripple you," he observed. He recommended reading the New Testament in the Greek "for new insights."

He warned about "spiritual erosion, from the realities of parish life, from criticism, from parish councils and from the need for a fresh message each Sunday. A change of parish is not the cure. Resort to prayer and systematic, devotional reading of the Bible. The vision will fade when you are intellectually lazy or behind with your work. One of ministers' great perils is the failure to have a schedule for visits, study and sermon preparation."

"If the preacher knows God, his message will be as wide as the love of God. It is his privilege to lead his people past the preacher to the knowledge of the love of God. It is his purpose to bring men to Christ. It is most necessary that he be constantly looking into the face of Jesus so that he may say with Paul: 'I was not disobedient to the heavenly vision.'"

## "THE UNSEEN POWER"

What makes a man strive on and on... though gains are far and few... what unseen power turns the tide... what tender voice says "try again"... when he has lost the game... seeming as a friend in need... who keeps fond hopes aflame... could be the prize of self-respect... that answers urgent pleas... and man can well be governed by... responsibilities... dreams also are a factor... to make a man push on... through stormy skies of might-have-been... toward a brilliant dawn... but most of all, true faith in God... helps mankind make his way... faith is the unseen power... we find it, when we pray.

to the outstanding boy and girl in each year's class. The awards are made on the basis of scholarship, leadership, character, integrity, etc.

M. Francis Coulson, assistant superintendent of the Adams County schools, Gettysburg, was the speaker for the exercises and prefaced his remarks with a reference to the opening candlelighting ceremony, stating that "one candle alone does not make much light, but as a group, candles illuminate the entire stage, so the members of the class, with each one doing a small part, will be able to let the world know about them as a group."

**Adds "Fourth R"**

Mr. Coulson told the class that up to now they have been concerned only with the three R's and asked that they consider the fourth R, responsibility. He noted the difference in teacher training

Paul Scheivert and Mrs. John Kindig.

in the elementary school, and the next step the pupils will take forward in class work, together with the additional subjects to be added to their curriculum. The speaker said that a student could be a "Johnny-do-little," content with D grades, not willing to be anything but a spectator for extra curricular activities, and always a knocker instead of a booster, or a pupil could strive to be a "Jack Energetic," sticking to the task regardless of how tough it gets until it is completed; do his best work at all times and always strive for improvement, participate in a number of activities and always be a booster of the school; the church and the community as well. He challenged each boy and girl to be a "Jack Energetic" and not sell himself or herself short.

"Ideals," Mr. Coulson said "are like the stars referred to by one of the student speakers. You will not succeed in touching them with your hands but like the seafaring man, you should use them as a guide and follow them to reach your destiny." Not only do children have responsibilities, but the teachers and parents as well were reminded of theirs by Mr. Coulson, who stated that "the children need good homes and family life, where they should learn the best use necessary in smooth running of a home, and also learn the best use of leisure time, they need to be helped to respect all men, to develop ethical values and principles, and their duty to church, community and nation."

deficit economy and U. S. aid makes up the deficit.

The 9,000 Americans on the island include advisers to the Nationalist army.

The riots—the first here against Americans — strained relations with the United States.

A U. S. military court's acquittal of a master sergeant of voluntary manslaughter charges touched off the rioting. M. Sgt. Robert R. Reynolds of Colorado, Md., had admitted shooting to death a 33-year-old Chinese he accused of peeping through the bathroom window of his home at his wife, but contended he shot the man in self-defense.

**Reynolds Leaves Area**

Feeling ran high against the court-martial decision. After Reynolds and his family were flown to the Philippines yesterday en route home, a crowd of 3,000 Chinese stormed the two-story, gray brick U. S. embassy building.

They hauled down a U. S. flag and tore it to shreds. They broke windows. Surging inside, they smashed furnishings and tore up piles of classified documents.

Other rioters wrecked the U. S. information building some distance away.

Still others besieged 100 American in a U. S. Army communications center, but were unable to get in.

**Breakfast, Reception**

The best man was Lawrence Keiser, R. 5, brother of the groom. The ushers were Carl Keller, Gettysburg, and Gilbert Bowling, Gettysburg R. 2.

Mrs. Barr, mother of the bride, wore an old rose lace street-length dress with white accessories and a corsage of white carnations and pink rosebuds.

White gladioli and fern decorated the main altar and spring flowers were placed at the side altars. Mrs. George F. Eberhart, the church organist, accompanied the soloist, Miss Jane Sanders, R. 5, who sang "Ave Maria," "O Lord I Am Not Worthy" and "Panis Angelicus."

A wedding breakfast was served immediately after the ceremony in the parochial school basement. A reception was held later at the home of the groom for approximately 150 guests. The bride and groom left for a wedding trip to Florida. Mrs. Keiser wore a blue dress with matching accessories and a red rosebud corsage. ## BOOST PAY OF CHURCH HEADS

ENDICOTT, N.Y. (AP)—The Wyoming Conference of the Methodist Church yesterday voted to increase the income of its four district superintendents from \$6,400 to \$6,900 a year. The districts are Scranton and Wilkes-Barre, Pa., and Oneonta and Binghamton, N.Y.

The conference is holding its annual meeting here this week, with more than 700 delegates on hand.

A property at Scranton was ruled out as a possible site for a home for the aged in a report by a conference committee.

The Rev. Harry E. Brooks, Scranton, said the committee found the site "unadvisable" despite the fact that it already was in use as a home for both aged and children.

G. Wesley Lewis, Tipton, Pa., was reelected conference lay leader in a meeting of Wyoming Conference laymen. The group also reelected other officers, including President Walter Hunt, Unadilla, N.Y.

## Today's Talk

ON READING  
One of the most valuable of all habits is that of regular reading. It is amazing how much one can read if done so as a habit. Some time each day before retiring at night and often at many periods of the day. The more you read the more you want to read. Reading does that to you.

Read the books that have stood the test of time. Books that have helped to change the thought of the world, like "The Origin of Species," by Charles Darwin, or "Les Misérables," by Victor Hugo. The reading of such books takes you into a world apart, and you are sure to get thoughts that you have never experienced before.

Getting lost in a second-hand bookshop is a delightful experience! Many a time I have almost been locked in! I wouldn't have cared. I would have been among friends that introduced themselves. Under such circumstances have I discovered many a small volume that has enriched my life. Every great book is the certificate of the author who wrote it.

The more you read of worthwhile books, the more you are intrigued to read and gradually you take up with a variety of books, for authors are of every type, and they have written for every interest and every age. When you take up the interest in books you dedicate yourself to a new and enlarged world, and you will feel a pride and humbleness as you pass, or visit, any fine public library.

I have a little row of small, precious books that have inspired me much over the years. From this collection I often select a book to read and, I repeat, time and time again. Is there any topic in the world more fascinating than the discussion of worthy books? If there is I haven't discovered it.

## Just Folks

THE NEED  
Life is a round of endless needs  
And never ceasing tasks to do.  
Who with today's demand succeeds,  
Tomorrow wakes to start anew.

The worth while cause needs many hands  
And many minds its work to share.  
As proof of such devotion stands  
Even the humblest house of prayer.

"Rest!" say the doctors. Life replies  
"Work, share and give the while you may."

Who chooses rest before he dies  
Lets strength and courage slip away."

## HOPE SENATE WILL RESTORE BUDGET CUTS

WASHINGTON (AP) — The Eisenhower administration apparently will have to put its hopes on the Senate to restore sharp cuts in the defense budget.

However, some of the most vocal economy-in-government advocates are in the Senate, so the administration's hope may prove to be a forlorn one.

House members showed little inclination to grant President Eisenhower's request for a bigger military budget than the \$33,541,225,000 recommended by the House Appropriations Committee.

To Follow Committees  
With one full day of debate behind it, and voting scheduled to start Monday, indications were the House would follow substantially its committee's recommendations on new military funds for the 1958 fiscal year, starting July 1.

If it does, the Defense Department's appropriations for next year will be \$2,586,775,000 less than the President requested. Eisenhower says at least \$1,200,000,000 of that cut should be put back in the interest of national security.

Republicans and Democrats both were divided in their opinions as to whether the committee went too far in its cuts.

Says Cuts Too Deep  
Rep. Wigglesworth (R-Mass.), an appropriations committee member, told the House yesterday the cuts were too deep.

A committee colleague, Rep. Rep. Scrivner (R-Kan.), said that if \$33 billion dollars "will not buy our security, neither will \$6 billion."

The committee's cuts, said Rep. Mahon (D-Tex.), floor manager for the bill, were made "with the greatest care and caution."  
Secretary of the Army Brucker, meanwhile, asked a Senate Appropriations Subcommittee to put back at least \$204,700,000 of the billion-plus cut.

Brucker and Gen. Maxwell D. Taylor, Army chief of staff, said the United States must maintain strong forces to discourage possible Soviet aggression.

## Monroe County Pays Respects To Woman Doctor After 50 Years

STROUDSBURG, Pa. (AP) — The people of this northeastern Pennsylvania resort region are pouring out their grateful affection for Dr. Nina Price, who is rounding out 50 years of practice as a tireless family physician.

Doctor Nina — that's the name she goes by generally — is a short, trim, free-wheeling, gay and rather gaminous woman of 74, described by other leading citizens as "a blessing to the community."

In her own words, she dedicated herself to "the old-fashioned principle" that when you choose to become a doctor you accept human problems and cope with them, with or without pay.

Her colleagues estimate that over the years Doctor Nina has been paid by fewer than 40 percent of her patients.

"What of it?" she says. "Do you think I reckon up rewards in money? Don't think for a moment that I've been cheated."

On Thursday night, all Monroe County paid its respects to her, officially. The city and county medical societies, men's and women's service clubs, young people's groups, nurses and a crowd of others, among them long-time patients of Doctor Nina, packed into a hotel ballroom for the unpublicized affair.

Exchange Anecdotes  
Through the dinner hour applause broke out from time to time; diners exchanged anecdotes about the honored guest; an old-timer said "yes, she's known all over as a doctor who never turned down a patient or demanded a fee."

Doctor Nina didn't want to make a speech, but her neighbors at the head table managed to get her on her feet. She said:

"Did you ever dream that you were walking down a street or that you were in a room filled with people and you suddenly realized you had forgotten your shoes or your clothes or something?"

"Well, I feel like that now. I'm almost sure I'll wake up one minute and find out that I have on a hospital gown and that I am wearing a bedpan for a hat."

When the laughter ebbed, she went on: "I don't know why you feel that I've done so much and not been repaid. I've had more fun in my work than I could ever have had any other way, and I've been repaid a thousand times — by little babies who grew up to be strong men and good citizens, and by men and women who have never stopped thanking me. I've got so much and I've had so much from everything I've done."

Born in Ithaca, Mich., Nov. 30, 1882, next to the youngest of nine children, the girl Nina moved to Williamsport, Pa., with her family when she was six. She was graduated from high school there at the age of 13, received her medical training at Northwestern University, Evanston, Ill., then transferred to Women's Medical College, Philadelphia. After graduation in 1907, she interned in Boston and became a general practitioner.

She is married to A. M. Price, Stroudsburg auto dealer. They have several daughters, all married.

He's trying hard not to let a sudden bump separate him from a fragile cargo under his left front fender — a nest of wren eggs.

Pat Johnson found the next two weeks ago. He thinks the sun beating down on the fender together with the heat from the engine has provided ample warmth for the eggs by day. The mother bird takes her place on the nest the minute Johnson returns home each day.

Johnson said he plans to make it easier on the mother wren. He's taking a trip to Florida next week — but is leaving the car parked here.

He thinks the eggs should be hatched by the time he returns.

## FIREPROOF SUIT STOPS SHOW AT SAFETY CLINIC

DALLAS (AP) — Wayne Maxwell was sprayed with flame and sat on a bucket of fire yesterday to model a fireproof suit the fashion show m.c. said was intended for "those dramatic moments."

Maxwell, of Guardian Safety Co., Tulsa, Okla., was one of several muscular models who showed what's fashionable — and safe — to wear in the oil field.

The "style show" had a pretty commentator, Bobby Hughes, but the rest of the models weren't the type men whistle at on windy corners.

Stopped The Show  
Tanned workers at the American Assn. of Oilwell Drilling Contractors' Safety Clinic stepped slowly across the stage to soft music. Muscles bulging, they paused, turned and demonstrated suits and gear.

John S. Jackson of Fort Worth, Tex., wore an inflatable life jacket described as a "cunning cummerbund." Bill Armentrout showed coveralls "artfully designed with alternating fullness and snugness in all the right places."

The audience, mostly oilmen, replied with ribald laughter, comments and leering whistles, much to the discomfort of the models. But Maxwell's outfit, which Miss Hughes said was called "out of the frying pan into the fire," and a "red-hot item," was the show-stopper.

The first railroad diner service was on the Pennsylvania Railroad in a baggage car in 1882. It served only oyster stew, doughnuts and coffee.

## Nominate Democrat On GOP Ticket

SCRANTON, Pa. (AP) — Republican leaders in Scranton today are in the uncomfortable position of having nominated a Democrat for school director in last Tuesday's primary.

William L. Jones Jr., one of three school directors nominated, has been a registered Democrat for 15 years. William J. Powell, GOP chairman, said he knew Jones' party affiliation and had warned Republican leaders Jones was a strong candidate.

"I can't cry now," Powell said. "I was the one who called for an 'open' primary and I have to stand by it."

There is nothing in the state election laws to prevent Jones from running in November as a Republican.

## 5 BOYS ADMIT 51 BURGLARIES

PHILADELPHIA (AP)—Five boys in their early teens admitted in Municipal Court yesterday that they committed 51 burglaries in homes and small stores in north Philadelphia.

Two of them, William Durkalec, and Charles Angelus, each 15, had been arrested for four burglaries in Wildwood, N.J., while awaiting trial here. They were declared delinquents in Cape May County three weeks ago.

The others taken before Judge Theodore O. Spaulding yesterday are Thomas Merrigan and John Peterson, each 15, and Joseph Davis, 14.

Durkalec and Angelus were committed to the State Industrial School at Camp Hill, Pa. Merrigan was sent to the Youth Study Center for the time being. Davis was committed to the Glen Mills Industrial School. Peterson was placed on probation after it was testified that he took part in only two of the Philadelphia burglaries and that he had a good school record.

Police said that the value of the loot came to nearly \$5,000. Clothing, jewelry, radios and cash were stolen.

## Indians Knock Off White Sox For 11th Victory In Last 14 Games Despite Shaky Pitching

By ED WILKS  
The Associated Press

Cleveland's Indians may be the most overlooked second-place team baseball has had in a long time.

But while the Chicago White Sox made off with the American League-lead with a 10-game unbeaten streak and the New York Yankees played night games in a plush tavern, the Indians were plying their trade in 14 games, virtually unnoticed.

The Tribe finally caught the eye last night, knocking off the White Sox 4-3 to creep within two games of the lead in the opener of a four-game set at Cleveland.

**Three Big Hitters**  
Cleveland began the current side by tripping the Yankees after the champs had won six in a row to gain first place. But the two-game sweep was almost overlooked with the injury to Herb Score in the first game of the set.

Since then, the Tribe has stepped right along with a quartet of 300 hitters in Vic Wertz (.337), Gene Woodling (.324), Roger Maris (.315) and Rocky Colavito (.311) helping to make up for shaky pitching that has accomplished only one complete game in the surge.

It was Wertz and Colavito who delivered the pay off singles as the Tribe scored twice in the seventh to win last night after trailing 3-2.

**Ahead Of Yankees**  
The victory kept the Indians a game ahead of the Yankees, who ended a two-game slump with an 8-1 breeze past Washington. Boston rallied to beat Baltimore 4-3 and gain a fourth-place tie with Detroit, 5½ games back, in the only other AL game played. The Tigers were rained out at Kansas City.

In the National, Cincinnati's Redlegs held on to a two-game lead, although beaten 9-6 by St. Louis. Milwaukee, whipped 5-1 at Chicago, gave up a share of second place to the Brooklyn Dodgers, who defeated the New York Giants 6-0. Philadelphia's Phillies batted four home runs to beat Pittsburgh 7-3.

Cleveland made the most of breaks for an early 2-1 lead, scoring in the first on a bases-loaded walk that chased Chicago starter Jack Harshman, and again in the fifth when Nellie Fox, the Sox' second baseman, was charged with his first error of the season.

**Williams Keeps Rolling**  
Andy Carey got the Yankees rolling against winless Chuk Stobbs, now 0-9, with a two-run homer in the second—a clout that reached the left-field bleachers, 430 feet from the plate. Only four hitters—Jimmy Fox, Hank Greenberg, Joe DiMaggio and Gus Zernial—ever parked one there before Tom Sturdivant won his third walking seven but striking out six.

Ted Williams continued his latest hitting spree, upping his AL-leading average to .417 with three hits in four at bats for the Red Sox. His second double set off the two-run eighth that beat the Orioles, with Frank Malzone and Gene Stephens hitting the RBI singles. Jim Bredwiler, who's been around for seven years now, hit his first major league home run in the fifth for all of the Orioles' runs.

The Cardinals, who had lost five in a row, clobbered starter Joe Nuxhall and four Redleg relievers for 15 hits. Hal Smith had three and Don Blasingame drove in four runs. Larry Jackson, coming on when starter Sam Jones wrenched a knee in the third inning, won it, but needed Hoyt Wilhelm's help when the Redlegs scored four in the ninth.

**Spain Loses Again**  
The Cubs won for only the second time in 11 tries at home this season with Frank Enza, a 26-year-old outfielder purchased Monday from Portland, becoming the 27th player to hit a home run in his first major league at bat. The rookie also tripled for a total of two RBIs as Warren Spahn, with-out a victory or complete game in his last four starts, took his second defeat. Rookie Moe Drabowsky struck out five and left 13 Braves on base while gaining second victory with a nine-hitter.

The Dodgers, who have won six of their last seven, sprung Roy Campanella loose from the bench after a five-game stay with an 0-for-14 slump and the big catcher batted his fifth and sixth home runs for four RBIs in three trips. Both were off Johnny Antonelli,

who had won three in a row from the Brooks, and had been tagged for a Campy home run only once before—back on May 4, 1953, when the southpaw was with Milwaukee. Carl Furillo had two singles and a home run, good for two runs that gave him the NL RBI lead with 31, as Don Newcombe won his fourth with a nine-hitter in his sixth successive complete game.

Rip Repulski, Gran Hamner, Chico Fernandez and Willie Jones homered for the Phillies and rookie Jack Sanford, who won his fifth with relief help. Repulski's smash came with two on as Bob Stan Landes thumbed out 12 Pirates, who heckled his calls behind the plate.

Chicago Cub rookie pitcher Dave Hillman won 21 games for Los Angeles in the Pacific Coast League in 1956.

## JACKSON WILL MEET CHAMP IN POLO GROUNDS

NEW YORK (AP) — Tommy (Hurricane) Jackson the "chop 'em up" man with the double uppercut, actually is going to fight for the world heavyweight championship as Floyd Patterson makes his first defense at the Polo Grounds in New York July 29 or 30.

Finding the challenger has been the most difficult part of the independent promotion by Emil Lence, a dress manufacturer who used to run fights at Eastern Parkway Arena in Brooklyn. Ever since Cus D'Amato, Patterson's manager, made his impassioned personal declaration of independence from the International Boxing Club, Lence has been trying to sign Jackson, the No. 1 contender.

**20 Pct. Of Everything**  
Through the mediation of Julius Helfand, chairman of the New York State Athletic Commission, they finally got together yesterday. Lippe Breidbart, Jackson's manager, agreed to 20 percent of "everything" including gate receipts and a guaranteed TV revenue of \$175,000. D'Amato will get 40 percent for the champion. Helfand helped iron out a last minute hitch when Breidbart finally agreed to a rematch in case Jackson won the title.

Television is a key to his promotion, as it is in most boxing promotion. Lance's lawyer, Howard Shelton, claims they have three actual offers of \$175,000 from sponsors. The promoter is shopping around the networks, looking for the best deal. In any event, there will be a TV black-out in New York and surrounding area.

**1st Since November**  
Patterson won 22, hasn't fought since he knocked out Archie Moore in five rounds to win the title at Chicago, Nov. 30. His record is 31-1 with 22 knockouts, the only defeat being an eight-round decision by Joey Maxim in 1954, two years after he won the Olympic title.

Since he lost to Patterson in the 12-round elimination match a year ago, Jackson has beaten Bob Baker at Pittsburgh and Julio Mederos at Milwaukee. He hasn't been in action since Dec. 27. His record is 29-5-1.

## Lincoln Speedway Program Tonight

Troy Funk and Bobby Able will endeavor to add victory No. 2 to their records on the stock car racing program at Lincoln Speedway tonight at 8:30 as more than 40 NASCAR drivers converge on the ½-mile track for the third time.

Weather forced a postponement of the six race program opening week and with the added time to tune their cars, tonight's entrants figure to be in top shape.

Funds captured the initial 25-lap feature, but was balked in his bid for a second by Able. But these two aren't the only capable drivers in the field. Highly regarded pilots include Shorty Kirschner, Dizzy Dean, Bob Hefflin, Charley Boone, Johnny MacKison, George Kessler, Gene Goodling, Johnny Roberts, Will Musselman, Boots Poided, Pete Peters, Tommy Starnier and Sid Hinkle.

Tonight's program will open with three 10-lap heats followed by a five-lap trophy dash of the three heat winners, one 12-lap consolation and the regular 25-lap feature event.

**Yesterday's Fight**  
By The Associated Press  
WASHINGTON, D. C. — Virgil Akins, 147, St. Louis, stopped Jimmy Beemham, 151½, Miami, 3.

ST. LOUIS — Franz Szuzina, 164½, Germany, outpointed Pedro Gonzales, 163½, Pittsburgh, 10.

SUNDAY GAME AT 3

The South Penn Baseball League game between Bratsburn and Arendtsville at Arendtsville will start at 3 o'clock Sunday afternoon instead of the usual time of 2.

Gulfstream Park's 1957 meeting resulted in pari-mutual wagering of \$54,481,169, a drop of five per cent over 1956. Attendance fell 1.7 per cent.

Only three active American Leaguers have hit 40 or more runs in one season — Mickey Mantle (52 in 1956), Ted Williams (43 in 1949) and Gus Zernial (42 in 1953).

JUST A MILESTONE — Enos Slaughter, the apparently ageless outfielder, is joined by Manager Casey Stengel in Yankee Stadium party as the baseballer noted his 41st birthday.

LANDY'S RECORD UNTOUCHED AT RELAYS IN L.A.

By BOB MYERS

LOS ANGELES (AP)—John Landy's world record in the mile run still is intact today and the 17th annual Memorial Coliseum Relays came off like the three-ring circus it was expected to be, with these results:

Merv Lincoln of Australia proved to be the best of a select cast of four sub-4-minute milers and captured the intriguing event in a time of 4:01.0.

Half-mile Tom Courtney smashed the world 880-yard record, and in the process flattened his arch rival Arnie Sowell, with a time of 1:46.8.

At Modesto Tonight

Tonight most of the cast competes in the Modesto, Calif., Relays, which has produced its share of outstanding achievements.

The miracle-mile held the spotlight — until Courtney cut loose anyhow. And while Landy's record of 3:58 was not threatened, nor was the 4-minute time shaved, the four runners from abroad gave the fans a great competitive race.

Lincoln won handily with a closing rush from 200 yards out that put England's Brian Hewson in second place, in a time of 4:01.4.

Favorite Fades

Laszlo Tabori, Hungary's great distance man, took third in 4:01.6, and Derek Ibbotson of England, the pre-race favorite, faded to last after using up his strength setting the pace for three and a half laps. His time was 4:02.1.

Courtney, formerly of Fordham and, like Sowell, now in the Army, broke the world mark of 1:47.5 set in 1955 by Lon Spurrier, ex-California runner.

Bobby Morrow of Abilene Christian easily whipped a mediocre field in the 100-yard dash with a time of 9.4. It bettered a Coliseum record set by the late Charley Paddock at 9.5 in 1928 and tied since by five other sprinters.

The Texas relay team of Bobby Whitlen, Eddie Southern, Hollis Gainey and Larry Wilson, ran the 440 in 4:00. It bettered a Texas owned record of 4:02. But the Longhorns and Abilene Christian have a pending world mark of 39.9.

Lower World Mark

Texas did the 880 in 1:23.9. The accepted world mark is 1:25, held by Texas and Abilene Christian. The Texans also have a pending time of 1:22.7.

Occidental's 2-mile team did 7:22.7, UCLA 7:23.7 and Southern California 7:24.8, all eclipsing the world record pending by Oxy at 7:26.6.

Other outstanding feats: World pole vault record holder Bob Gutowski, Oxy, 15-6; Charles Dumas, high

# BUILDING AND REPAIR

## Milk Production Retarded When Cows Don't Eat Enough County Agent Zettle Reports

By FRANK S. ZETTEL  
Adams County Farm Agent

Genetic inheritance is not the limiting factor for efficient milk production. It's just that too many cows don't get enough to eat.

In 1955 there were 111 herds in Pennsylvania that produced over 500 pounds of butterfat per cow; in 1956 there were 178 herds over 500 pounds of fat. Breeding, or genetic inheritance, of these 500 pounds fat herds could be purchased for a \$5 breeding fee any place in the state. This is true because 72 per cent of the 500 pound fat herds used artificial breeding, and over 50 per cent of the actual cows in these herds resulted from bulls used in the artificial breeding program.

Today, almost one-half the dairy cows in Pennsylvania are being bred artificially to the same bulls that sired the cows in the 500 pound fat herds. Average production of all animals resulting from artificial breeding is 100 pounds of fat below these 500 pounds herds. Thus, too many cows just don't get enough to eat of either forage

or grain.

Pasture is the best and most economical source of energy for milk production. Unfortunately, it's the most neglected land area on our farms. There is a good pasture program available to every dairyman in the county regardless of the soil type or location of farm.

**Sprays For Bagworms**

Bagworms feed on a wide variety of trees and shrubs, both evergreen and deciduous. Plants commonly attacked are arborvitae, maple spruce, sycamore, and willow. They seldom cause complete defoliation, but usually cause partial defoliation which gives the tree a very ragged appearance. Bagworms go through the winter as eggs within the old bags that hang on the trees.

Young worms start feeding on the foliage and soon construct the bag which is a mixture of leaves, twigs, and silken threads. The worms use the bag as protection and move it about with them as they feed.

It is essential to control the worms while they are still small, since insecticides are relatively ineffective upon the larger bagworms.

Spray infested shrubs from about June 10 to 20. Use three tablespoons of lead arsenate or 2½ tablespoons of 25 per cent malathion wettable powder or 1½ teaspoons of 50 per cent malathion emulsion to one gallon of water.

Bagworms can also be controlled on small shrubs by cutting off the bags during the winter and spring and destroying them by burning.

**Check Post Beetles**

There are a number of small, dark - brown beetles that attack seasoned timbers and boards in buildings. Some attack only the sapwood of hardwoods, while others work only in pine and fir timbers. The majority of these powder post beetles deposit their eggs in the pores of the seasoned wood during June.

The tiny, white larvae or grubs eat into the wood and pack their burrows with fine powder like sawdust. Some of this wood dust often sifts from the infested timbers onto the floor and objects below.

If the infestation has continued for several years, the surface of the infested timbers may contain numerous round holes about the size of pin heads. These are exit holes that are made by the adult beetles as they emerge from the wood in early June.

A coat of paint or varnish will prevent the beetles from laying eggs, but will not destroy the eggs or grubs that may already be in the wood when the application is made. An application of 5 per cent DDT made on infested wood before June 1, will give fair control. A 5 per cent pentachlorophenol solution painted or sprayed on the surface of the wood is also effective. The odor of pentachlorophenol may be objectionable for several weeks after it is used.

## The Copley: Has Quaint Charm, Modern Interior

Rooms — Six  
Bedrooms — Two  
Closets — Eight  
Cubage: —  
House — 24,900 Ft.  
Garage — 6,000 Ft.  
Dimensions — 54' 6" x 25' 6"

Long and low, the "Copley," today's Home of the Week, presents a charmingly quaint exterior appearance yet offers a strictly modern, well planned interior.

Shingles are suggested for the exterior finish as they blend most suitably with the "old fashioned" appeal of this design. The wide, covered chimney, blinds and the wide decorative panels under the windows are other decorative features that are in keeping with the architecture of the house . . . and serve to enhance that architecture, too.

Once you step into the reception hall you forget any "old fashioned" ideas, however. None-the-less, period furniture would be right "at home" in a house of this type.

**Curved Bay Window**

From the reception hall you can go directly to the living room or dining room or to another hallway connecting with the two bedrooms in the rear of the house.

A curved bay window in the right wall of the living room vies with the large fireplace for top decorative honors. Both are very appealing features and should be kept in mind when you're decorating and furnishing this room.

The dining room . . . or den . . . has a multi-sectioned picture window as its main point of decorative interest. Built into the right wall are two china cabinets with a strong practical as well as decorative appeal. Drawers can be built in under these cabinets so that you'll have a handy storage spot for table linens, etc.

**Bedrooms Same Size**

Since the left wall of the room is unbroken by doorways, you'll probably want to place your buffet there. Should you decide to use this room as a den you can omit the china cabinets. And, in such a case you might want to install bookshelves along the unbroken wall area.

Both of the bedrooms are of the same size. Each also has two windows to assure ample light and ventilation as well as good closet space. The bath is placed between the bedrooms; the linen closet opens on the bathroom.

A U-shaped arrangement of counters, cabinets, appliances, etc., brings everything within easy reach in the cozy kitchen. Right off the kitchen . . . with no wall to divide them . . . is the dinette or laundry. Since this room is so conveniently near to the kitchen . . . and located in the front section of the house . . . you may prefer to use it as a dinette and keep the dining room proper for family dinners and "company" meals. Should you decide to use it as a laundry, however, you can reach the back yard by going through the garage.

The lavette is handy when you're in the left wing of the house. Stairs to the basement are located across from the lavette.

Be sure to notice the tool storage area in the garage. You can install a work bench where you'll get the light from the front window.

If you don't install your laundry equipment on the ground floor put it in the basement under the

kitchen. Then, the heating plant can be located under the living room. Measuring 79' 6" by 25' 6", this house will need at least a 100' lot.

This design is approved by the VA and FHA. Complete blueprints and specifications of the "Copley" are available with a money back guarantee if for any reason the builder decides not to proceed with building plans.

**Blueprints Available**

Complete plans and specifications for this house and all other "Home of the Week" designs are available at moderate cost.

Donald C. Miller, county supervisor for the Farmers Home Administration here, was presented with an award for ten years' service with the Administration at the third annual Farm and Office Management conference held this week at Pennsylvania State University.

Attending the conference from the Gettysburg office, in addition to Mr. Miller, was Miss Donna L. Hammers, assistant county office clerk.

**HANDYMAN'S DEBUT**

HUNTINGTON, W. Va. (AP) — George Feyer, concert pianist, was playing before a Marshall College audience when a pedal on his piano broke in the midst of "Echoes in Paris."

Flustered, Feyer turned to the audience and inquired: "Does anyone here know how to fix a piano pedal?"

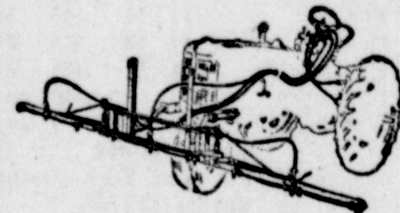

A lanky freshman made his way to the stage and saved the day. He received Feyer's thanks and a tremendous ovation.

## FOX FORAGE HARVESTER

FOX FORAGE HARVESTERS have a cylinder type cutting assembly—to give you a safe, sharp shearing action rather than blunt chopping.

That's why the Fox operates so smoothly—so positively—with so little power. Why? Fox-harvested forage is so clean cut and even—why the Fox helps you save more of the meat-making, milk making nutrients nature has put into grass, corn and sorghum crops.

**SAFER, TOO!** The Fox Cutting Assembly, because of its slower operating speed . . . because of its safety shear pump—is the safest of all forage harvesters.

**YOU CAN SHARPEN IT IN THE FIELD!** Another reason you'll always get clean-cut forage with the Fox. Whether you're harvesting green hay, dried or wilted hay, corn or sorghum crop, you can be certain your cutter knives are always in top operating condition on the Fox.

Now, General Chemical, 50-year leader in agricultural chemicals, brings you another great new farm aid. This time it's STA-FRESH—the handy, low-cost sodium bisulfite powder that keeps silage fresh, green and sweet-smelling.

STA-FRESH insures a superior feed with less work at lower cost. It is already highly recommended by many county agents and agricultural leaders. STA-FRESH has been used with success on alfalfa, orchard grass, brome grass, ladino, sweet clover, timothy, vetch and oats.

Cows prefer STA-FRESH-treated silage. In a typical free-choice test, cattle ate an average of 63 pounds of bisulfite-treated silage to 18 pounds of untreated silage.

STA-FRESH keeps silage sweet-smelling, too; rids it of that "silage stink" that fouls your clothes, smells up the barn, and may taint milk.

Get the facts on STA-FRESH right away with complete details on how to use it. We have STA-FRESH in stock now in 80-lb. bags. See us today.

## REVIVE ROOMS IN OLD HOUSE WITH PAINT JOB

By VIVIAN BROWN  
The Associated Press

A little bit of energy and a little bit of paint can make that old homestead just what it should be—a picture palace.

It is getting so simple to paint nowadays that even a youngster could control a small job. The paint roller and improved paints have combined to make painting a simple do-it-yourself project. To encourage those who need encouragement, the industry is again staging a "Spruce Up . . . It's Spring" campaign, offering an all-out program of help from paint and wallpaper dealers.

The suggestion this year is for stripes, a way to push your walls out to make a room seem larger, pull the eye away from the unsightly corners, raise ceilings, make a focus of one handsome

furniture piece.

There are new lacquers that dry with a professional finish, multi-colored paints that may be applied with a brush or sprayed (using the vacuum cleaner in reverse) to give a mazelized effect to transform foyer or hallway.

### Doors in Wall

If too many doors break up a wall, stripes may be painted right over the doors to help make the breaks disappear. It will make the whole room look more spacious and the walls seem higher. It's a good idea to hold the stripes to one wall, painting the other three walls in a soft, subdued paint tone.

Wall pipes in a playroom, den or bathroom may be hidden by painting stripes on a board that is put up to conceal them. Make an easel back board or a tall wall-board, placing it to conceal the pipes. The board may be painted so that it matches the color of the wall behind it or harmonizes with it. Stripes may be carried out on the wallboard as well as the wall. If there is space behind the wallboard it may even be used for storage.

A tiny room may offer distraction

by painting a small chest in stripes so that the eye may be focused away from the smallness of the room. The chest may be painted brightly against a softer, darker wall background for a similar effect.

Three different paint tones may be combined for a tri-dimensional effect, using three compatible tones of the same color. The idea is to paint stripes across a room in three separate shades, starting with the darkest tone and lightening it in two other shades.

### Stripe Technique

If you decide to try the stripe technique, measure the area to be painted straight across the wall from left to right. Decide how wide you want each stripe to be. For example: You may want one paler and one brighter stripe of the same width—two or three inches wide. Or you may prefer a soft toned stripe two inches wide next to another the same width in a brighter tone, followed by a bold color stripe half an inch wide.

Draw straight pencil lines lightly from the ceiling to floor marking off each stripe. Be sure they are straight. When you start to paint you may prefer to use masking tape for surer straight-

## ON THE HOUSE

An entrance foyer that is beginning to look rundown at the heel can be given a luxury touch with the installation of real marble. This is possible with a thin marble tile now on the market . . . half the thickness and half the weight of a regular marble slab.

Over the floor, lay strips of the desired color hardwood, two inches wide and half-an-inch thick. The strips are laid so that squares are formed into which the tile will be set in place with mastic. How large the squares are will depend on what size marble tile you buy. They come in three sizes—8 inches

by 8 inches, 8 inches by 12 inches, and 12 inches by 12 inches.

For the best effects, contrast the tone of the wood with one of the 18 different marble colorings. A dark wood-light marble or light wood-dark marble being the most interesting combinations.

### Business Booms

In January, 1951, approximately 250 sliding glass doors per month were being manufactured by less than a dozen manufacturers, all located in southern California. What little sale they had was confined mostly to their own area and to expensive homes.

Today, these same manufacturers . . . now the nucleus of a booming business on a national basis . . . are producing and selling 30,000 sliding glass doors and windows every month. Although 80 per cent of all these products are still manufactured in California, sliding glass doors are now in common use in every state in the union in all climates.

The Sliding Glass Door and Window Institute points out that only one home in every 12,000 had sliding glass doors or windows in 1951, whereas today one in every 10 new homes is equipped with them.

### Integrate Kitchens

Originally used only to integrate the living room to the patio the doors and windows now are being used in integrate kitchens, dens, dining rooms, hallways, bedrooms and even living rooms with the outdoors. Newer, lighter and stronger materials have permitted the use of double-paneled glass in cold climates and the consequent elimination of drafts and heat losses.

### Department of Inquiry

Question: I have some wiring to do in the basement of our home and planned on using BX cable, but a neighbor tells me it is permissible to use fabric cable in our area. Since this is cheaper, I would like to use it, but do not know whether it is practical. Can you advise me?

ANSWER: BX cable is rubber-covered wire encased in a flexible steel covering. What you call fabric cable is non-metallic sheathed cable. Either is satisfactory, but it is important to check with local authorities on what may or may not be used rather than accept the word of a neighbor. It is equally important to know whether the work you plan on doing can be done by anyone except a licensed electrician. You may be voiding the fire insurance on your house without knowing it.

QUESTION: I recently inspected the outside of our house, as I am getting ready to paint it soon. I was dismayed to find evidence of dry mold in many places. Can this be removed effectively?

ANSWER: Dry mold on the outside of a house can be taken off easily by washing the affected area with either household ammonia or a solution of trisodium phosphate. When the mold is off, rinse with clear water. However, the presence of dry mold indicates excessive moisture, and this condition should be corrected before repainting, otherwise you'll have the same trouble all over again in a few months.

## COLOR SOURCE OF TROUBLES IN DECORATING

By VIVIAN BROWN  
The Associated Press

There are women who should see a psychiatrist before decorating their homes.

Many a man has come home from a hard day at the office to find that his wife has painted the living room or study (where he'd planned to relax) a vivid orange or other stampeding color, hardly conducive to his nerves.

Homemakers should take a leaf from medical researchers and other experts who planned a "peace of mind" room for tranquil living, coordinating all ingredients of the room—color, fabric, furniture, lighting and artwork—into a peace theme designed to soothe harried demotions. The room stressed warm, soft pastels such as dusty rose or pale yellow to provide cheerfulness, light and airy feeling. Warm colors, the experts suggest, should border on cool colors such as soft blue-green or gray. Two cool colors or two violently warm colors are likely to irritate you.

Red stimulates and speeds the

reactions and may make you nervous, they say. Blue seems to quiet the nerves but leads to a depressed feeling after a time. Designers who studied the fabric problem in relation to tranquility reported that novelty or nubby fabrics and highly contrasting textures may be distracting and unnerving.

Soft light should be used, they say. Too-bright light is likely to dull appreciation of objects and persons.

The body should be rested before the mind can be put at ease, the designers point out, so it is important to choose comfortable furniture for your restful room.

A soft, high-back chair with an ottoman, one that fits the man in size and pleases him in style, is essential to comfort.

Preparing a rice ring? Add chopped stuffed olives, silvered browned almonds or minced parsley to it.
